INTERNATIONAL LOG BUILDERS' ASSOCIATION

**Keeping Log Homes Relevant and Viable for the Future
April 8 – 11th 2010, Prescott, Arizona**

REGISTRATION PACKAGE

THE CONFERENCE

The Prescott Resort & Conference Center is located in picturesque Prescott, Arizona. The resort offers an indoor pool, hot tub, casino, gift shop, lounge and restaurant. Rooms come with a private balcony and views of either the city or the nearby mountains. This resort is at the centre of a recreation paradise; there are literally hundreds of places to go and sights to see.

Join us on Thursday, April 8th 2010, through Sunday April 11th 2010 for the warm fellowship of other ILBA members.

Bring your family and make it a holiday for you all. There is so much to see and experience in this beautiful area.

This conference will focus on enhancing all aspects of the industry:

Blower Door Testing and Thermal Imaging
Tips and Hints on Restoration
Accelerated Building Part 2
Log Grading
Log Builder Support and Safety
Streamline Design
Building Inspector Presentation – Why Do We Have Building Codes, Green Building Codes and How Do They Work?
Geometric Roof System
Round Notch Technique in Germany
Panel Discussion on Keeping Log Homes Relevant and Viable for the Future
Tech Talk
The Architecture of Trees
And much more.

Our schedule this year will have you wanting to bring additional staff to take in all the various seminars and the valuable training being offered. Family is also very welcome to attend, and to further their experience we are hoping to offer daycare for your children, with safety being a top priority.

Our keynote speaker Saturday evening after dinner will be Roald Gundersen, a Wisconsin architect well-known for his interesting, integrated eco-friendly living systems. He was a project architect on the Biosphere 2 self-contained-living project in Arizona several years ago. The Biosphere projects experimented with humans, over periods of time, in a man-made, enclosed and sealed ecological system. Place-based architecture is one of his specialties and he deals with low-energy, local and abundant building materials, as well as appropriate forest stewardship. For more information about eco-architect Gundersen and many images of his whole-tree projects, see his website: www.wholetreearchitecture.com. Besides his keynote talk, Mr.Gundersen will present The Architecture of Trees.

Benefit Auction

We have some items that have been donated, that will make this auction truly an exciting one. Join us to raise money for a good cause and have some fun in the process. Send donations ahead or call Ann at the office to discuss your donation.

Annual General Meeting

The association's 38th annual general meeting will cover a variety of topics. Your input at this meeting is essential.

Slide Show

Send Ann a CD (limit 15) of your recent work pictures, so that she is able to put them in the slideshow. Small projects are welcome; we want to see a variety of work or projects. Come and share your creative skills. Please indicate your intent to participate in this event by ticking the appropriate box on your Main Conference Registration form.

Trade Show

Our association is fueled by the participation and support of our industry sponsors. There will be a wine and cheese reception on their behalf and lots of opportunity to see their product. Make sure to stop by their booths throughout the conference and support those who are supporting your industry!

Bus Tour – Sunday

Enjoy sightseeing the area on an air-conditioned bus that will take us to Arcosanti, an experimental and educational town, where you can experience architecture plus ecology. We are also planning a stop in Jerome, which is an old mining town and an historic ghost town. If time permits, we will continue on to Sedona, known for some of the most spectacular scenery in the world. There are a minimum number of participants for this tour to go forward.

We hope to see you there.
